

## Filtration Group Facilities

“We will provide quality products that meet or exceed our customers’ expectations while we pursue continuous improvements.”

## Broad Product Offering

Cleanroom  
Bio-Safety & Cleanbench  
HVAC  
Industrial Dust & Liquid  
Molecular  
Paint & Finishing  
Filter Media & Nonwovens  
Power Systems

## Customer Focused

In-house technical experts  
Rapid prototyping  
Flexible production  
In-house testing  
E-commerce  
Preferred stocking programs  
Extensive distribution network throughout North America  
Dedicated customer support

# Cleanroom Filtration

Custom Solutions To Meet Your Filtration Requirements

## Ceiling Modules and Panels

- HEPA
- ULPA

## High Efficiency IAQ Filters

- HEPA
- FP (V-Bank)

## Molecular Filtration

- Chemical Filter
- Activated Carbon
- Disposable
- Low Leak Housings

# Cleanroom Filtration

Filtration Group is the largest privately held manufacturer of filtration products in North America. In business since 1942, Filtration Group designs and produces a full line of high quality, high efficiency cleanroom filters. Our expertise offers a broad selection of high efficiency air filters for both particulate and molecular filtration. Our products are manufactured and tested in a cleanroom environment to ensure the highest level of performance and cleanliness. ISO 9001 and ISO 9002 systems have been implemented in our product design, manufacturing and testing in order to ensure maximum quality and reliability.

Filtration Group's comprehensive offering includes products for the HVAC, industrial dust, liquid, gas phase, cleanroom, power systems, paint and filter media markets. Our emphasis on customer service, quality products and new product innovation has helped fuel Filtration Group's growth.

In addition to the cleanroom ceiling modules and panels, Filtration Group's comprehensive product offering includes HVAC, high efficiency HEPA products and an expansive line of molecular filters. Filtration Group has the product line to be your primary source for all of your cleanroom applications.

## Replaceable Terminal Modules

- 99.99% and 99.9995% efficiency
- 2.5" media packs
- Durable extruded aluminum frame
- Designed for easy installation and optimized service life

## Ducted Terminal Modules

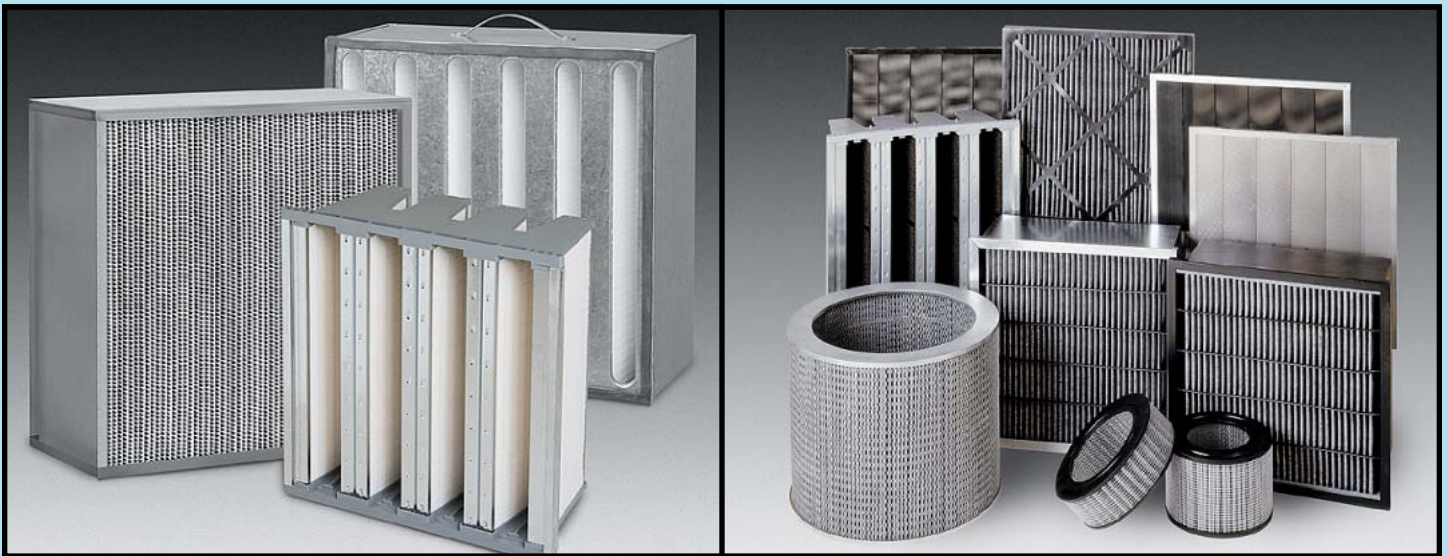

- 99.99% and 99.9995% efficiency
- HEPA available in 2.0" and 2.5" media packs
- ULPA available in 2.5" media pack
- Durable extruded aluminum frame
- Protective screen is designed to eliminate wear and shipping damage
- Knife edge option available

## Cleanroom Panels

- 99.99% and 99.9995% efficiency
- 2.0" and 2.5" media packs
- Durable extruded aluminum frame
- Knife edge & gel seal options available

# Total Confidence

Filtration Group's global network of distributors and strategic partners ensures easy access to our products.

## High Efficiency Products

- HEPA's
- FP (V-Bank)
- High Volume HEPA

## Molecular Products

- Disposable filters
- High efficiency systems
- Technical application support
